**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over APA. See paper number 4 for this rejection.

***Response to Arguments***

Applicant's arguments filed 6/10/03 concerning the above rejection have been fully considered but they are not persuasive. It is first noted that the dependent claims have not been separately argued such that they stand or fall with the parent claims. In the independent claims, the assist member is a spring and the mount is a support for the spring. No patentable merit is seen in providing a spring for biasing purposes of known apparatus elements i.e. the feed pan. Springs are notoriously old in the mechanical arts and their addition to a known apparatus would have been well within the scope of one skilled in the art.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
